

Sunbrella Vinyl

Care and Cleaning

Weekly Maintenance

Sunbrella® Horizon™ is engineered to meet the Sunbrella brand quality standard. Long-lasting performance and design are what you can expect. One of the best ways to maintain the appearance of Sunbrella Horizon is to regularly care for it. To care for your Sunbrella Horizon fabric, we suggest the following:

General or Light Cleaning

Method 1

- Wipe spills as they occur with a dry towel, soft cloth or napkin
- An art gum eraser, cleaning eraser sponges/pads, or corn starch are effective against some spills. If using corn starch, remove excess with a straight edge

Method 2

- Clean with a soapy water solution, such as 4 ml (1 teaspoon) of mild soap to 250 ml (1 cup) of water
- Blot excess moisture with a clean, dry towel, soft cloth or napkin
- For stubborn spills or messes, use isopropyl (rubbing) alcohol
- Rinse thoroughly with water until all soap is removed.
- Allow fabric to air dry

Heavy Cleaning for Stubborn Stains and Mildew

Sunbrella Horizon fabric does not promote mildew growth. However, mildew may grow on dirt and other foreign substances that are not removed from the fabric. For mildew and other stubborn messes:

- Prepare a solution of 1 cup of bleach: ¼ cup mild soap per 3.78 litres of water
- Apply and allow to soak into the fabric for 15 minutes
- Remove spill or mess with a non-abrasive sponge, towel or very soft bristle brush
- Rinse thoroughly to remove all soap residue
- Allow fabric to air dry
- If residue and/or mildew are severe, bleach quantities may be increased
- If necessary, acetone may be used to remove nail polish

Always rinse Sunbrella Horizon thoroughly to completely remove bleach. Please be aware of the environment. Bleach can have harmful effects on the natural environment around you. We do not advise using bleach if you are surrounded by a body of water. Sunbrella Horizon should only be allowed to air dry.

Other Notes

This information is a guideline, not a guarantee and does not relieve the user from the responsibility of proper care, cleaning and use of the Product and all cleaning agents. Sunbrella cannot be responsible when unknown changes are made by the manufacturer of the cleaning agent to their formulations. The use of certain cleaning agents, including but not limited to powdered abrasives, solvents, industrial strength cleaners and power washing is not recommended and can be harmful to the surface appearance and the lifespan of the product. The Supplier and its agents assume no responsibility resulting from the use of such cleaning agents or procedures to the vinyl and use of such will void the warranty.
